

# Number Of Customers Under Each Employee

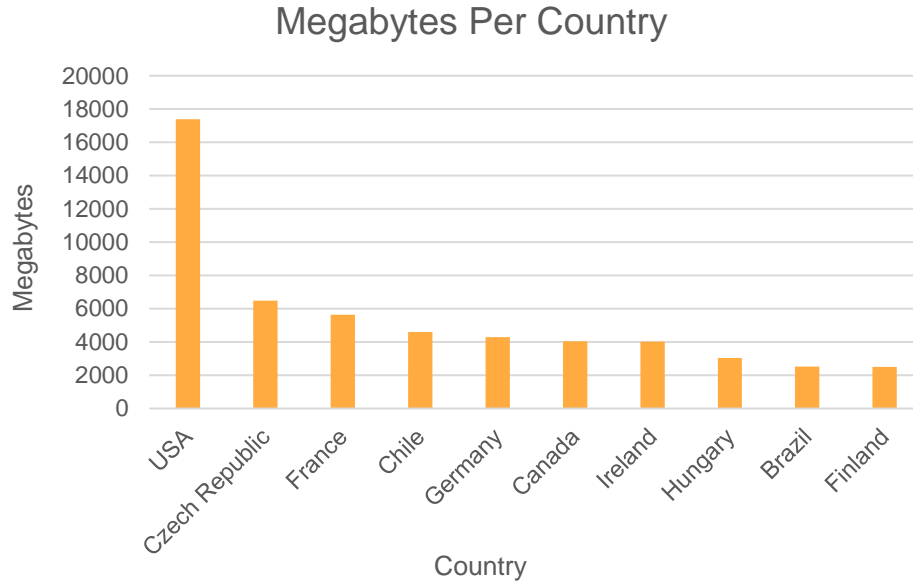

Customers Per Employee

As we can see, there are only 3 employees responsible for supporting the customers, with Jane Peacock being the one responsible for the most. Another thing to mention is that they are all under the same supervisor.

And you might as well note that there are 8 employees in total.

# Total Amount Of Megabytes Used Per Country To Store Track IDs

This chart depicts the amount of storage needed to store each country's track ID data.

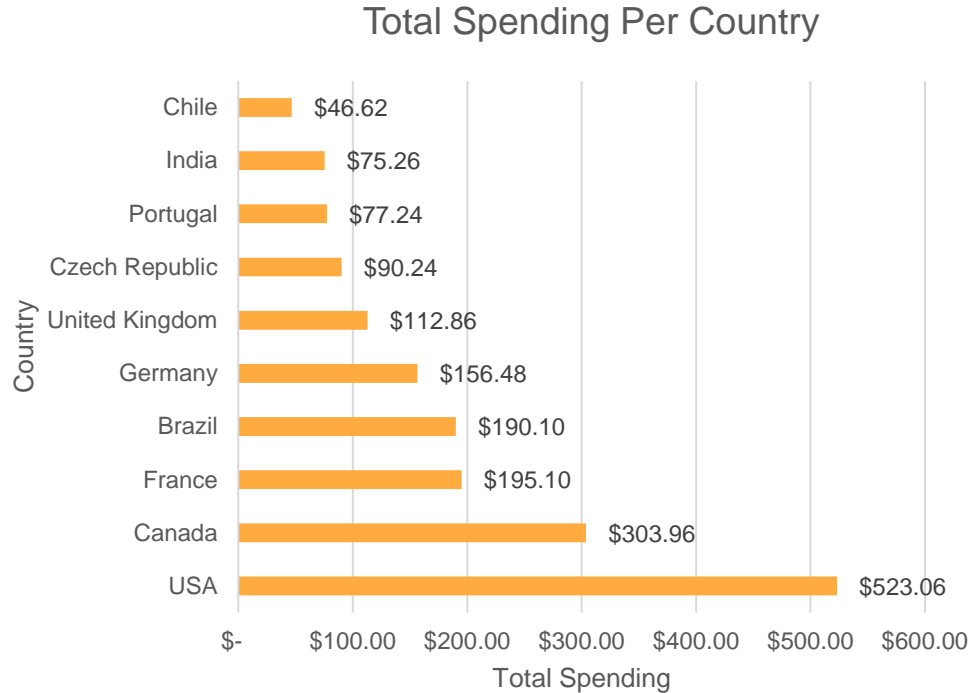

Take note that these are only the top 10.

# Number Of Customers In Each Of The 2 TotalOrdersQuantity Categories

This was an unexpected one. I was aiming to determine the customers with the biggest orders, but it turned out that they all purchased the same amount except for Puja Srivastava.

# The Total Spending Per Country

These are the top 10 countries in terms of the total money spent on purchases, and as we can see, the USA ranks top and Chile ranks bottom.
